“Research Through MSU Physics: A Student Perspective”

**Courtney Peck,
MSU Alumni, Colorado University, Boulder**

Abstract:

As a recent graduate in the physics department at Montana State, I will reflect on the research opportunities presented to me as an undergraduate, as well as other opportunities available for students. Additionally, I will discuss graduate school opportunities, internships, fellowships, and research opportunities beyond the undergraduate level. Undergraduates are encouraged to attend.

Host:

Jiong Qiu
